KINGS COUNTY TO DECIDE

Democratic Hopes in New York Staked on Brooklyn.

Victory Assured If McLaughlin Rolls Up the Same Majority Given Van Wyck for Governor Two Years Ago Districts - Energetic Work Necessary to Enable Croker to Fulfill From Illinois-Republican Efforts to Arouse Religious Prejudice-Ex-Situation - Ante-Election Crowds.

NEW YORK, Nov. 1.-Democratic effort, and maybe Democratic hope, in New York is now centred on Kings County. Kings County means Brooklyn. Brooklyn in turn, means Hugh McLaughlin, the old grey boss. This division of Greater New York gave Judge Van Wyck 20,000 majority in his race for Governor two years ago against Rough Rider Roosevelt, Richard Croker says if Kings County gives as good an account of itself in this contest, he will realize his hope of giving Bryan such a lead in Greater New York as cannot be overcome from up the State.

Chairman James D. Richardson, of the Congressional Campaign Committee, says if the party holds its own in Brooklyn the Democrats will control the next House. Two or three of the Congressional seats from Brooklyn now held by Democrats are being very closely contested. The inference is that if they are lost the Democrats will not control the next House. Hanna is pouring a stream of money into these districts. The Democratic managers are unable to render any financial assistance to their candidates in Brooklyn, who are being so sorely pressed. Luckily these candidates are wealthy, and still more luckily they are willing to match dollars with the Hannaites.

On the whole, therefore, the Democratic prospect in Brooklyn is not as gloomy as it might be. The Tammany folk say Hugh McLaughlin is in I'ne and working loyally and energetically for the national ticket. McLaughlin's machine is powerful and usually delivers the goods. Unlike Croker, McLaughlin is not talking. Not a boast has he made since the opening of the campaign. Some of the people at Democratic national headquarters don't try. like McLaughlin's silence. Some of them also have heard that young Bird Coler is sulking and that his lieutenants have knives up their sleeves. Coler is popular in Brooklyn. One need only mention Coler's name in Brooklyn to learn that he has a large and lusty following among in the Senate, and he had charge of the American flag. We propose first to put

What better is given we propose that the water shall with a hundred thousand unless Kings proof is needed to establish Mr. Bryan's County does as well by Bryan as it did by Van Wyck. The facts, or at least the reports of the Tammany district leaders in New York City proper seem to justify March With the Republicans, But Croker's claim of a largely increased Bryan vote in Tammany's jurisdiction.

For example, Tim Sullivan, leader of the Sixth Assembly district, reported today that Bryan would get a majority of 4,000 in that district, where he got only 1,500 majority four years ago. There are thirtyfive assembly districts in New York City mal Republican majorities. It can be easily figured out that if the ratio of gain in Tim Sullivan's district is maintained "To the Citizens of Greater New York: throughout the twenty-nine Democratic Assembly districts Bryan will get more than 60,000 majority on Manhattan Island. The most encouraging news that reached Democratic national headquarters came from Illinois. It was contained in confidential telegram from Col. Moses C. Wetmore, the multi-millionaire tobac conist of St. Louis, to his friend, ex-Gov. ernor Stone. The telegram was dated Chicago and tersely proclaimed: "Have been all over Illinois and am certain there will be a Bryan landslide here! Hurrah!"

After receiving this news from his friend Wetmore, ex-Governor Stone spoke election were destroyed. The county comas follows on the general situation: "The Republicans are desperate. Feeling that they are beaten on the field of

In one of these circuars it is blandly affirmed that a compac has been made by the Democratic Nation al Committee and Bryan on one hand, and hy some one, I do not know who, on behalf of the Catholic Church, on the othe hand, by which the entire Catholic votis to be delivered to the Democratic party in return for some kind of favors to be extended to the Catholic Church with reference to the island possessions coming to the Government as a result of the

Spanish war. "On the other hand, some one is circulating literature among Catholics to the effect that the A. P. A. vote is to be de livered to the Democratic ticket in consideration of some favor to that order. Of course, all these stories are unqualified falsehoods. There is not a syllable of Governor Stone on the General truth in any of these publications so far as Mr. Bryan and the Democratic Committee are concerned. Nevertheless, it is pitiful and shameful that a great party should instigate, permit, or tolerate a thing like this.

"I was informed today that a Republican plot was on foot to publish a story on Sunday next to the effect that Mr Bryan is a stockholder in the Standard Oil Trust. The story is so laughably absurd that it is almost incredible that anyone would seriously think of making it public. Still, we cannot tell what these desperate people may do in the last hours of their dying struggle."

That the anti-imperialists are practical as well as in dead earnest in their fight against McKinley was shown by the action taken today by their National Campaign Committee in offering a reward of \$100 for the arrest and conviction of any and all persons illegally registered or illegally voting at the coming election.

The legal committee will be asked to meet in this city Monday to consult with the managers of the Anti-Imperialist movement with reference to the means to be adopted in each State to prevent fraud and corruption at the polls.

CHICAGO, Nov. 1 .- William J. Bryan negan his final effort in Illinois today. He made a speech to nearly 20,000 people on the lake front in which he made a scathing attack on trusts. In the evening the candidate delivered eight speeches and the crowds which greeted him were enormous,

Mr. Bryan arrived at 4:20 o'clock in the afternoon. Outside of the depot the cohorts of the county Democracy were drawn up in line and these led the cheering when Mr. Bryan appeared. He rode in the open car riage and with bared head he bowed repeatedly in acknowledgment of the cheers from the multitude that lined the streets through which he was driven, escorted by a band and the Cook County Marching Club.

Mr. Bryan, according to his usual custom, declined to express any opinion regarding the general result of the election, except to say that he was satisfied with

the outlook. Mr. Bryan will remain in Chicago until after the big parade in his honor Saturday night, when he will leave for Lincoln. He is billed for forty speeches and will be kept on the move from 9 o'clock in the morning till midnight each day.

In the course of his lake front speech Mr. Bryan said:

But Illinois is a hard proposition. The
Cook County Democrats are determined to their county ticket regardless of everything else. They have thousands to spend for the county and nothing for the national ticket.

If the Democratic National Committee has a cent to spare, the local Democrats who are loyal to Bryan believe that Cook County is the place to spend it. They say that a liberal amount spent in campaign-ing here will carry the county by 40,000 and the State by a liberal majority. Cook County, with Chicago its seething centre, is very debatable ground just now, and nobody recognizes the fact more forcibly than William J. Bryan. SECOND TOUR OF INDIANA

Bryan Given a Warm Reception by Hoosier Voters.

Itinerary Covers a Different Portion of the State From That of His Former Trip-Great Demonstrations at Crawfordsville, Frankfort, and Delphi-The Nebraskan Confident.

INDIANAPOLIS, Nov. 1 .- William J. Bryan made the last tour of Indiana in the present campaign today, having begun his speaking at Jamestown at 8:05 o'clock this morning and closed his tour at Hammond at 3:45 this afternoon. The trip was arranged through a portion of the State that he did not visit in his former tour, and all of his meetings were largely attended and were marked by tremendous enthusiasm. Accompanying him were a number of speakers who were dropped from time to time to address the assem bled crowds

Mr. Bryan reached the city from Cincinnati at midnight last night, and early this morning Mayor Taggart took charge of the train that was to carry the candidate and his party over the route to Chicago. At 7:30 Mr. Bryan left his berth, and, passing through the car, shook ands with all the occupants. He was bright and cheerful, and the cool morning air brought a rich glow to his cheeks. He declared that he was in good shape and well equipped for a hard day's work among the Hoosiers

The first stop was at Jamestown, where a crowd of several thousand was waiting at the railroad station. The people are engaged in agricultural pursuits, and Mr. Bryan lost no time in approaching the trust question.

"The Republicans," he said, "are in ar mbarrassing position, but they cannot say trusts are a good thing for fear of hurting their constituents and they cannot say nati, went Republican by nearly 26,009 in 1896. Mr. Johnson claims it by 2,590. Mr. Johnson gave these figures to Mr. Bryan grown under Republican nursing. So they as a result of the most careful investigathey cannot tell the difference."

Mr. Bryan drew an amusing word picture of the farmers dangling on the prongs of the Barbed Wire Trust and shouting for as the seventeen-year locust appears and McKinley and prosperity. He closed with an appeal to his hearers to beware of corrupt methods in the election and spoke feelingly of the sacredness of the ballot. At Crawfordsville 4,000 people were in waiting and when some of the men took

"You can't expect the Republicans to destroy trusts," said Mr. Bryan, "when their boss says there are none." He added that the chief argument being made against him is that he is dangerous because he is bonest. "If I'm honest," said he, 'believe me when I say that if elected President I will exercise every power of the office to destroy trusts, and we don't need any amendment to the Constitution

Speaking of the Philippine question, Mr Bryan said the proper policy was to give the Filipinos independence and protect them in it. "If anyone says we cannot protec

In this connection, he referred to the Cuban postal frauds and said that if a citizen would rob a native so close to home, what might not have happened 7,000 miles away. At Delphi, the home of Representative

Landis, Mr. Bryan left the train and spoke from a stand in the court house square He was escorted there by a brazs band and a cavalcade of mounted boys and girls wearing sashes of red, white, and blue. At the square 10,000 people were gathered and the efforts of the local Democratic politicians were enlisted to push the crowd back so that Mr. Bryan's carriage might get through. The crowd was even more

enthusiastic than the one at Frankfort and Mr. Bryan and the members of his party were visibly pleased.

Explaining why he kept his hat on, he said that in 1896 all he had to show that he was old enough to run for President was his bald spot and the Constitution. Now the Republicans were trying to take

away the Constitution, and so the spot needed special care. He took up some of the arguments advanced by Senator Har na at a recent Delphi meeting, and contended that whatever Hanna might say, there are trusts and empty dinner pails. The Republicans, he said, do not consider the farmer a business man. He just works. But the board of trade man

who makes more money in an hour bet-ting than the farmer makes in a year is a business man. The Republicans, he said, are depending on the farmers to make up the votes lost in the cities, it having been conceded that the laboring vote will go to the Democrats. But there is less reason for the farmer voting the Republican ticket he said than for any other man. The train left Delphi behind time by reason of the delay in getting to and from

the public square. The speeches at Mon-ticello, Monon, Renssalaer, and Hammond were addressed mainly to the laboring classes. He told them that if their employers threatened to discharge them for voting the Democratic ticket they should reply that if times are half as good as Republicans say they can get work eise-where without trouble.

The man who wanted to know about the

Sulu treaty turned up at Monticello and Mr. Bryan went into the subject at considerable length and was cheered when he referred to the treaty recognizing slavery. "The Republican leaders," he said, speaking of changes in Republican policy, "seem to think their party is an association of athletes, trained to turn somersaults when the leaders say 'Flop,'"

Speaking of plutocracy, he said: "God made our wants and distributed them

Popular opinion, which, by common consent, makes him the scapegoat of the Wer Office measures, with or without good reason, considers that Lord Salisbury, by his appointment, puts an af-

front upon the public judgment. The appointment of William St. John Brodrick to succed the Marquis of Lansdowne as Secretary of State for War is not seriously criticised, although the many friends and supporters of Mr. George Wyndham, Parliamentary Secretary of the War Office, are disappointed that he was not made the head of the office. Mr. Wyndham's undoubted ability and high services will undoubtedly receive recognition in the allotment of offices still unfilled. His manifold social connections would seriously hamper him in the radical reforms which the new

Minister of War must undertake. The appointment of Lord Selborne as First Lord of the Admiralty is generally

approved. LONDON, Nov. 2 .- No further Cabinet appointments have been announced or trustworthily forecasted, although the "Telegraph," which first announced that Lord Lanadowne would be appointed Minister of Foreign Affairs, says it believes it to be true that Mr. Wyndham will be Chief Secretary, with a seat in the Cabi-

net. Moderate opinion does not oppose, indeed it approves the promotion of Lord Lansdowne, recalling his successful administration as Viceroy of Canada and India. His supporters contend that he has special qualifications for a diplomatic

position. The jingo press is furious over his appointment, and it finds fresh food for its anger in a speech made by Field Marshal Bryan said he preferred to wait until walch reads much like a plea of self-de-later in the day before expressing an fence, and which may be briefly summarcrease in armaments, which the Govern-

ment refused. He said that when he, as having charge of the purely military side of the army organization, thought it necessary to point out that the army was not strong enough or the guns old fashioned, that the fortifications were defended by obsolete artillery or other things which he thought were not what they ought to be, he was listened to attentively, and many times the answer was that these things were very degirable.

But there was no money to provide them. That was the common answer of all government as long as he could remember. The commander-in-chief might ask for things, but he did not get them. Lord Wolseley suggested as a rewedy that when recommendations of this kind were delib-erately made by responsible experts they should be made known to the nation. He said he believed in the common sense of the people to judge between a speciallet who recommended changes and the treas-ury which refused to pay for them.

ROBERTS' RETURN DELAYED.

Activity of Boers and Illness of His Daughter the Causes.

LONDON, Nov. 1.-The departure of General Roberts from South Africa, which was recently postponed from an earlier date to November 15, has now apparently been further delayed. The matter is in his own hands and the War Office states that it has no information as to when he will leave. There is a report that one of his daughters is suffering from enterio fever at Pretoria, which, if true, is doubtrt of the reason for his re South Africa, but the continued guerrilla activity probably exceeds his expectations and is causing him to hesitate to leave.

It is noteworthy that General Kitchener in a speech at Pretoria, when hidding farewell to some of the returning Australians, said that the war had lasted longer perhaps than most of the soldiers had expected, but there was still much work to

PRISON FOR A PRINCE.

Convicted of Murdering His Mulatta Servant in Africa.

BERLIN, Nov. 2.-The "National Zeftung" says that Princ. Prosper Arenberg has been sentenced to fifteen years' imprisonment for murdering a mulatto ser-vant in southwest Africa. This is the longest sentence allowed by the German law for the effence. It involves the prisoner's treatment as an ordinary criminal, which is quite different from confinement in a fortress, which it was supposed would be the penalty.
